## **THE SKY'S THE LIMIT**

Leave it to Royal Caribbean® to raise the bar on adventure. North Star® elevates you high above the ship for unrivaled 360-degree views of the world as you wander. Just step into the observation capsule — winner of the Guinness World Record for tallest viewing deck on a cruise ship — and take in views of the ocean, ship, and some of the world's most incredible shores from over 300 feet above sea level.

## **DINING**

### **ELEVATED EATS**

Level-up your date night or family dinner with steakhouse classics and white tablecloth service at Chop's Grille, or tuck into an exclusive five-course feast at Chef's Table. And at Wonderland, feast on imaginative plates served with a heaping helping of awe. These dishes are primed to please every palate and satisfy any appetite.

### **GLOBAL GOURMET**

Prep your taste buds for a culinary journey with flavors that travel the world — like hand-rolled sushi at Izumi and Far East fare with flair at Teppanyaki right at your table and served up with a sizzle. Sunday supper is served every day at the new Giovanni's<sup>SM</sup> Italian Kitchen & Wine Bar. The menu highlights Old World classics, including veal meatballs in sauce like they make in Sardinia and Pappardelle served with rich radicchio cream.

### **LAID BACK BITES**

Bring the fiesta poolside with grab and go Mexican flavors, like tacos and beef burritos, at El Loco Fresh®. Enjoy a slice of authentic New York Style pizza in between thrills at Sorrento's. Or head to the fan-favorite Windjammer for all your favorite self-serve eats. You'll find a detailed list of the best places to eat for free on a cruise, along with information on when breakfast, lunch and dinner are served at the Windjammer and the main dining room.
